## CONDUIT SHAFT TO OPEN UP TWO JEROME PROPERTIES

Following the election of officers of the Verde Apex Mining company here yesterday afternoon, President Ed Shumate announced the company's acceptance of the plan of Engineer John S. Venture Hill, concerning the joint issues in sinking a large double compartment shaft, to open up the ore of the two companies. A wire received from Mr. Riley yesterday afternoon, announced his successful discovery of two desirable sites for the shaft, and the fact that choice would be made upon the recommendation of Mr. Shumate, who is vice president of the company. The venture Hill company, on his return to the district early next week, Venture Hill stockholders will meet in a week and tender the presidency of the company to Shumate. Thus, with practically the same men in control, the two companies will be promoted together and, without there being a real merger, the development of the ore bodies will proceed equally rapidly for both concerns. Another encouraging feature for Venture Hill people, is the fact the Pittsburgh Jerome has just built a \$45,000 road right through the center of

## MIAMI CON. MINES HIRE DRILL EXPERTS

Negotiations were entered into today by the Miami Consolidated Mines company with two of the best known drill experts in the west and the announcement that one of them has taken personal supervision of the work on the 1200 acres of mineral ground owned by the corporation is expected early next week.

Preliminary work is under way at the property, but the drills will not be on the ground for at least two weeks. In the meantime, the management of the company is determined to get the best drill expert obtainable, regardless of cost, to supervise the exploration of the claims that are expected to develop a great porphyry copper mine. John S. Cook, Nevada and Arizona banker and mining man, is to depart for the east next Sunday or Monday. He will make the trip by way of Phoenix, Bisbee, Douglas, Tucson and El Paso arriving in New York in about two weeks. He will join Harry Lefferts on the Atlantic coast and together they will complete the details of placing Miami Consolidated on the New York club.

Demand for Miami Consolidated stock continued brisk in both Globe and Miami today, and the early completion of the sale of the 100,000 shares allotted to this district is anticipated.

Hal Prince returned from Miami last night and reports a wonderfully successful stock sale, a great majority of the stock is being sold in small blocks of 200 to 1,000 shares each to miners in the district. In almost every case they are men who know the property and knowing it are more than anxious to invest their money. The subscription book will be opened in Phoenix at the office of Herbert S. Prince Co., 14 West Adams street, Monday morning.

## FINANCES AND MARKETS

[Republican A. P. Leased Wire]

NEW YORK, Sept. 28.—(Wall Street).—Resumption of leadership by United States Steel was the most noteworthy feature of today's market, in which trading for the twentieth successive full session extended well over the million mark—approximately \$1,550,000. Of this total United States Steel furnished not less than 20 per cent, fluctuating between \$1,154,000 and \$1,183,000, a net gain of three points.

His chief rival was Republic Iron & Steel, which has been conspicuously strong of recent weeks, and today made an extreme rise of 8 points to 82, a new record. Earnings of the company are so large as to leave little doubt of the payment of remaining back dividends on the preferred stock, leaving the way open for dividends on the common.

Coppers were among the other strong shares, inspiration making a new maximum at 69 1/2, with heavy dealings in Kennecott and Anaconda. Failure of the Inspiration directors to increase the prevailing rate of dividend had no material influence.

Motor shares and allied issues were mainly at higher levels. General Motors repeating its recent record price of 750. Shipping shares were reactionary after early strength, but sugars yielded none of their advance. Equipments and munitions were subject to varying changes. Bethlehem Steel gaining almost 10 points with an additional 4 1/2 for General Electric, which rumor credits with an increased or extra dividend disbursement at an early date.

American Can, Texas Company were higher by 1 to 2 points. All the strength shown by rails was dissipated before mid-day, after which those issues forfeited much or all of their gains. Reading and Union Pacific denoting pressure or liquidation.

Bonds were strong, with special activity in international issues. Total sales, par value, \$6,875,000. United States bonds were unchanged on call.

CHICAGO GRAIN. Sept. 28.—(Assertions that irreparable drought damage had been done in Argentina carried the wheat market sharply up today, regardless of reports that Greece had joined the Anglo-French allies. The market, although unsettled at the close, was 2 1/2 to 3 1/2 cts higher, with December and May both at \$1.54 1/2. Corn gained 1/4 cts and oats 1/4 cts to 3/4 cts. In provisions the outcome ranged from 1/2 decline to 4 cts advance.

Notwithstanding that at the outset wheat prices, responding to the news about Greece, took a quick downward swing, the bulls soon regained control and then lifted the market without any substantial material change. It was contended by some authorities that the action of Greece had been largely discounted in advance and that one effect would be to facilitate North American breadstuff purchasing for our account. In any event, the interest of traders turned chiefly to the crop situation in Argentina, where predicted rains had failed to appear and where latest advices indicated that whether moisture came now or not the yield would be seriously curtailed.

His charters of lake vessels for immediate loading helped to give strength to corn. Oats derived firmness from the action of other cereals. Month-end evening up of trades made provisions average higher. The most notable bulge was in September pork, which advanced 40 cents to the highest level this season. Close: Wheat: Dec, \$1.54 1/2; May, \$1.54 1/2. Corn: Dec, 75 1/2; May, 76 1/2.

the property, available to the workmen on the V. H. tunnel without it costing them a cent. A power transmission line, built by and for another company, brings Fossil creek juice within two hundred yards of the site of the proposed shaft. At yesterday's meeting, Ed Shumate was re-elected president; C. T. Jolly of Clarkdale, vice president; J. H. Robinson, secretary-treasurer, and Harry Shumate, assistant secretary. W. F. W. Plaisted of Miami was elected director. Leroy Anderson, attorney for Verde Apex and Secretary John Robinson yesterday consulted the corporation's commission and announced that 100,000 shares of treasury stock in the company would be sold on subscription plan to Arizona investors at fifty cents. Permission to make the issue is expected to be granted by the commission early next week.

On the consolidation of the development work of Verde Apex and Venture Hill, John S. Riley, the engineer who developed United Verde Extension, will be tendered the position of resident manager, and will boss the work for both companies.

Oats: Dec, 48 1/2; May, 51 1/2. Pork: Dec, 23 1/2; Jan, 23 1/2. Lard: Dec, 13 1/2; Jan, 13 1/2. Ribs: Oct, 13 1/2; Jan, 12 1/2.

## LIVESTOCK

At Denver. DENVER, Sept. 28.—Cattle receipts, 1200; strong. Beef steers, \$4.00 to \$4.25; cows and heifers, \$3.00 to \$3.25; stockers and feeders, \$2.25 to \$2.50; calves, \$3.00 to \$3.50.
